

Hello Neighbor,

We are circulating a petition to restore equality in zoning – to allow homeowners to decide who lives in their homes. Believe it or not, right now, the city tells you who can and can't live in your own home!

This has caused financial hardship for some widows and families and young professional singles that rely on rental income from their basement apartment or a second home.

We need to gather enough signatures for this to go on the ballot in November's election.

This petition will remove any discrimination based on family or marital status, and any discrimination based on whether you're a renter or an owner or a student.

We're sorry that we missed catching you at home.

If you would like to sign the petition and/or help circulate it, please call us for the details or visit the website: <http://www.provocitizens.net/petition>

Sincerely,

*Roger Brown* 356-1032

*Thane Andersen* 368-4441
